8th Grade Summer Work Assignments

Math

Your child is receiving a summer math workbook. All studies have shown that, on average, students who do NOT work on math through the summer lose approximately two months of knowledge and skills. Have your child do a little each day, and she/he will not find the work a burden. I am expecting all students to complete **even numbers only** on each page. The work is due by **Friday August 25th**. I will be selecting random problems to record as an assessment **grade** for the 1st quarter of the next school year.

Your child's math binder from this past year is an excellent resource.

Students are expected to show all the calculations needed to arrive at the answer. If additional paper is needed, the workbook page number and problem number should be clearly labeled. The paper(s) must be included with the workbook when turned in on **August 25th**. Circle all your answers and keep the work neat! Illegible problems will be marked incorrect.

Language Arts

Prepare a "Book Talk" to be given upon your return from summer break.

A book talk includes: a title, author, a summary of the plot, your favorite passage (to be read aloud), 5 interesting or challenging vocabulary words with definitions and a recommendation to your classmates to either read the book or skip it - with reasons for your recommendation.

This does not need to be in writing, however, you must be well-prepared to present it in class. You may use notes/note cards. Your talk should be 3 - 5 minutes long. Please bring a copy of the book to school.

*8th grade will read a **mandatory** book as follows:

To Kill a Mockingbird by Harper Lee

*Take notes to recall characters, story, and interesting or challenging vocabulary. Be prepared to answer some questions about the book upon your return from summer break.
