Linton Hall School

Asthma Action Plan

Dear Parent or Guardian,

Please provide the information requested below to help us care for your child's life-threatening asthma condition while at school.

Instructions for keeping lifesaving medication at Linton Hall School:

- The parent must bring the medication to the school office and give to a school representative.
- Unless an authorization to self-carry/self-administer has been submitted to LHS, medications are not to be left in the classroom, on the teacher's desk, in the student's lunch box, or in a backpack. *This applies to grades 5-8th only.*
- One "Medication Authorization for Prescription and Non-prescription Medications" (part 5 of this packet) form needs to be completed for each medication left at the school.
- The medication must be in the original container/packaging, including the pharmacist's/manufacturer's administration instructions.
- A completed Asthma Action Plan (attached) must be on file. This plan includes 6 parts:

Part 1 – Provides contact information for parents, emergency contacts and doctor. **To be completed by parent/guardian.**

Part 2 – Provides parent/guardian authorization to provide care. **To be completed by parent/guardian.**

Part 3 – Provides medical history as well as specific instructions/details for keeping the student safe while at school. **To be completed by parent and school representative.**

Part 4 – Provides medication authorization for each medication to be administered. This section will need to be completed for each medication being left at school. **To be completed by healthcare provider and parent/guardian.**

Part 5 – Provides authorization when a student is to self-carry and self-administer medication. **To be completed by healthcare provider, parent/guardian, and student.** *This applies to grades 5-8th only.*

Part 6 – Provides healthcare provider authorization to administer medication and action plan during an asthmatic reaction. **To be completed by healthcare provider.**

Please note: Asthma Action Plans must be submitted annually at the beginning of each school year and whenever modifications are made to this plan.

PART 2: To be completed by Parent/Guardian

Parent/guardian request for administration of medication

Schools must obtain specific written parental/guardian authorization before any medical treatment including medication administration can be provided. When signed by the parent/guardian this written informed consent gives trained school staff authorization to implement the medical order. When parents/guardians authorize a medical treatment for their child in school such authorization includes permission for appropriate communications between the school health professional and the medical prescriber related to the specific treatment ordered. Health treatment plans not signed and dated by the parent/guardian will not be implemented until all signatures have been obtained. Legally appropriate school health professional-medical prescriber communications based on the medical orders generally include the following:

- The prescription of treatment itself (e.g., questions regarding dosage, method of administration, potential drug interactions);
- Implementation of the treatment in school (e.g., questions regarding safety concerns, infection control, issues, or modifications in the treatment order related to the school setting or student's academic schedule); and
- Student outcomes from the treatment (e.g., questions regarding observed side effects, possibly untoward reactions, observation of behavior in the classroom).

Student may not attend school until the written parental/guardian authorization has been signed and returned to the school. In accordance with the Virginia Code § 22.1-274, I agree to the following:

I will not hold the School Board or any of its employees liable for any negative outcome resulting from the self-administration of said emergency medication by the student.

Release of Liability / Hold Harmless

In consideration of Linton Hall School administering the above requested medication to my child _____, I hereby acknowledge that the school, its faculty and staff are not responsible for reactions to the medication, an improper dosage in the medication, etc., and will only be responsible for injuries relating to negligent physical administration of the medication.

I understand that the person administering this medication or treatment may or may not be trained or experienced in the administration of medications or treatments. I knowingly consent to these procedures and request that the medication/treatment be administered.

Print Parent's/Guardian's Name Date _____ _____

Parent's/Guardian's Signature Date _____ _____

PART 3: <u>To be completed by Parent and School Representative</u>

Medical History:

What are your child's typical asthma triggers?	
What age was your child when diagnosed?	
Has your child ever had a life-threatening reaction?	
Has your child ever received asthma medication?	
If yes, what are possible side effects we should watch for?	
What is your child's typical reaction like? Early warning signs/symptoms to watch for…	
Does your child have an allergy too? Have an EpiPen?	
What is the severity of the asthma?	
Is child on any other type of medications or supplements?	

Ways to keep student safe while at school:

For field trips, will you be transporting your child and staying to participate in the field trip?	
Are there classroom supplies that need to be eliminated from daily activity?	
Are there additional prevention steps that we need to take or other instructions/details you would like to share regarding your child's allergy that will help us to keep your child safe while at school?	

As a school, we will:

- Carry life-saving medication in locked bag at all times with your child.
- Notify you in advance of field trips, so you can address any risk of an asthmatic reaction.

PART 4: To be completed by Health Care Provider and Parent/Guardian

Medication Authorization for Prescription and Non-prescription Medications

- The parent must bring the medication to the school office. Medications are not to be left in the classroom, on the teacher's desk, in the student's lunch box, or in a backpack.
- One form needs to be completed for each medication left at the school.
- The medication must be in the original container/packaging, including the pharmacist's/manufacturer's administration instructions.
- The medication must be accompanied by this completed and signed form.
    - Section A must be completed by the parent/guardian for ALL medication authorizations.
    - Section A & B must be completed for any long-term medication authorizations (*those lasting longer than 10 working days*) or for any medications required to be on hand daily for life threatening emergencies (*ie., epipens/ albuterol*).

Section A: To be completed by parent/guardian (must be completed by the parent/guardian for **ALL** medication authorizations)

Medication authorization for: _____

(Child's name)

_____has my permission to administer the following medication:
(Name of Child Care Provider)

Medication name: _____Dosage and times to be administered: _____

Special instructions (if any): _____

This authorization is effective from: _____until: _____

(Start date) **(End date)**

Parent's or Guardian's Signature: _____ **Date**: _____

Section B: to be completed by child's physician (must be completed for any **long-term medication authorizations** (*those lasting longer than 10 working days*) or for any medications required to be on hand daily for life threatening emergencies (*ie., epipens/ albuterol*))

I, _____ certify that it is medically necessary for the medication(s) listed

(Name of Physician)

below to be administered to:_____ for a duration that exceeds 10 work days.

(Child's name)

Medication(s): _____

Dosage and Times to be administered: _____

Special instructions (if any): _____

This authorization is effective from: _____until: _____

(Start date) **(End date)**

Physician's Signature: _____ **Phone:** _____ **Date**: _____

PART 5: <u>To be completed by Health Care Provider, Parent/Guardian and Student</u>

PERMISSION FOR STUDENT TO CARRY AND/OR SELF-ADMINISTER EPINEPHRINE &/OR ALBUTEROL

Student Name: _____ DOB:_____

I, as the healthcare provider, certify that this child has a medical history of severe allergic reaction or asthma and has been trained in the use of the prescribed medication and is judged to be capable of carrying and self-administering epinephrine and/or albuterol. The nurse or designated school staff should be notified anytime the medication/injector is used. This child understands the hazards of sharing medication with others and has agreed to refrain from this practice. I understand that the school may withdraw permission to possess and self-administer the said emergency medication at any point during the school year if it is determined the student has abused the privilege of possession and self-administration or that the student is not safely and effectively self-administering the medication. Please indicate what authorization is being given:

Self-carry ☐
Self-administer ☐

Prescribed Medication/Dosage _____

Before allowing student to carry the prescribed medication, the healthcare provider will review proper use with the student. The physician must complete PART 5 of this packet "Medication Authorization for Prescription and Non-prescription Medications" for specific information concerning dosage and delivering the medication.

I DO _____ DO NOT _____believe that this student has received adequate education and has clear understanding on how and when to use the prescribed life-saving medication and is capable of safely carrying the medication on their person while in school.

Healthcare Provider Signature/Print Healthcare Provider Name/ Date _____

_____ _____

I DO _____ DO NOT _____request that Linton Hall School permit the identified student to carry prescribed life-saving medication on his/her person in school or at school related events and be allowed to use it as soon as a severe allergic reaction or asthmatic attack begins. I agree to release, indemnify and hold harmless Linton Hall School, staff and agents from lawsuit, claim demand or action related to this medication use.

In order for all school staff to be aware of where to find the life-saving medication in the case of an emergency, the

*medication will be kept*_____.
