

Meet The Teacher

"Mrs. Mason"

About Me

Mrs. Mason has been working in education for over 20 years. Throughout her career, she has taught middle school science, middle school math, and Algebra, bringing a strong foundation in both analytical thinking and problem-solving to her classroom.

She has been married for for almost 35 years and is the proud parent of two children and one grandchild.

Outside of the classroom, Mrs. Mason is an avid equestrian. She rides both English and western styles and enjoys a wide range of experiences, from trail riding to polo. She also loves spending time with her two lovable Labrador retrievers, Twix and Snickers.
