Linton Hall School

SchoolMessenger Communicate

Linton Hall School has contracted with West Corporation, provider of SchoolMessenger Solutions such as Communicate for parental outreach, emergency broadcasts, student attendance alerts and other communications for education.

The Communicate system is designed to automatically notify parents for reasons that impact the safety and academic performance of students. Communicate will extend the school's existing community outreach efforts and emergency preparedness procedures, as well as inform parents of upcoming school events such as testing and parent meetings. As a comprehensive communication tool, Communicate will contribute to the school's involvement initiatives, allowing the school to engage the broader educational community about a wide range of topics affecting students' academic success.

Communicate will not replace current school communication methods. The Head of School will still be accessible for live visits and will continue to communicate via current methods including paper-based memoranda. The school's implementation of the Communicate system is intended to extend its commitment to remain personally connected with parents by offering additional and timely communications.

West is the trusted provider of SchoolMessenger solutions. Thousands of schools and other educational institutions in all 50 states and Canada depend on SchoolMessenger products and services. From notifications and websites to custom mobile apps and social media, school leaders have relied on the SchoolMessenger platform since 1999 to engage with their communities in multiple languages and on any device.

Please make sure your contact information is always up to date. Contact the school office right away if your contact information changes. 703-368-3157 or email lhs@lintonhall.edu.
