

Meet The Teacher

"Mr. Machin"

About Me

Mr. Machin is originally from Venezuela and holds a degree in Education, which has allowed him to have incredible experiences teaching children and young people across different countries. He finds teaching Spanish especially rewarding—not only because it helps students learn a second language, but also because it introduces them to the richness of Latin American culture and its many beautiful countries.

He loves sharing the Spanish language with children and believes that learning another language can truly change lives. Teaching in different countries has strengthened his ability to adapt, communicate across languages, and celebrate cultural diversity.

Outside of the classroom, Mr. Machin enjoys reading, going to the movies and theater, playing basketball, and spending peaceful time at home.
