

Victoria Dianic

Ms. Victoria brings several years of preschool experience to Linton Hall School and a genuine appreciation for the curiosity and sense of wonder young children bring to the classroom. One of her favorite parts of teaching is watching children discover new things, learn from one another, build friendships, and develop new skills and independence.

Ms. Victoria holds a bachelor's degree in Communication Arts from Franciscan University of Steubenville. She values creating a classroom where children feel comfortable exploring, asking questions, and growing in confidence.

Outside of school, Ms. Victoria enjoys spending time with family and friends, traveling and visiting national parks, trying new foods, and seeking out new experiences that take her outside of her comfort zone.
